

CMA Certification: In-Vessel (CMA-I)

Expires: March 14, 2024

March 15, 2021

Joe Kofler
delfort USA Inc.
216 3rd St. NE, # C
Charlottesville, VA 22902

Dear Joe,

The Compost Manufacturing Alliance has conducted field testing of your products in CG95. As a result of that testing and document review, we are pleased to inform you that the following items are now accepted and are considered compostable at CMA In-Vessel Covered facilities. Congratulations!

Delfort – CMA-I Certified Items
Product Description
thinbarrier® eco FIT
thinbarrier® nature eco FIT

Please note that accepted submittal items are suitable for commercial collection but may not be suitable for residential curbside collection. Compost Manufacturing Alliance reserves the right to require periodic re-evaluation for recertification as early as one year after date of initial acceptance.

The listed products are considered CMA-I accepted. However, individual facilities may have additional requirements for acceptance of specific items or categories, which are subject to change at the individual facility's discretion. Specific governmental jurisdictions may also have specific requirements for marking or labelling compostable products. CMA acceptance does not imply compliance with specific facility or legal jurisdictional requirements.

If you have any questions or require any additional or clarifying information, please contact the Compost Manufacturing Alliance by e-mail at customerservice@composterapproved.com.

Sincerely,

Janet L. Thoman
Compliance Director
Compost Manufacturing Alliance, LLC

** Note that acknowledgement of an item's acceptability into CMA-I facilities does not authorize any use of the Compost Manufacturing Alliance's name or logo on products or on any marketing materials, including but not limited to, print, media and websites.*
