

delfort

OP polar bright[®]

the high luminescence paper for leaflets & inserts

benefits

- excellent folding performance for the most challenging folding patterns
- unmatched printed opacity for outstanding readability
- printable in offset and inkjet without use of primer
- low ink consumption with exceptional print density
- the optimized surface of the paper reduces the ink consumption
- safe solution for bar code reading
- made from FSC[™] and/or PEFC certified and controlled wood pulp (FSC-C111390, PEFC/08-33-0002)

features

- standard range from 35 g/m² to 74 g/m² (23.5 lbs to 50 lbs)
- other substances on demand
- low bulk and well balanced stiffness
- high-bright bluish white shade
- luminescence above 10
- enhanced brightness and opacity
- high accuracy sheeting and format stability

applications

- high luminescence pharma and cosmetic leaflets
- technical manuals
