thinprint publishing

delfort

OP polar bright® high bulk

pump up the volume

benefits

- excellent printing and converting performance
- unmatched printed opacity for outstanding readability
- low ink consumption with exceptional print density
- optimized surface of the paper reduces the ink consumption
- excellent runnability
- high tear resistance
- long lasting with outstanding haptic
- brilliant white paper for newsprint coldset
- cost efficient through more output per ton of paper
- lightweight paper means less pulp, lower weight, reduced transportation space, and less waste
- made from FSC™ and/or PEFC certified and controlled wood pulp (FSC-C111390, PEFC/08-33-0002)

features

- grammage range from 37 g/m² to 60 g/m² (25 lbs to 40 lbs)
- printable in offset and inkjet
- high bulk and well balanced stiffness
- high-bright bluish white shade
- luminescence above 10
- enhanced brightness and opacity
- high accuracy sheeting and format stability
- clear contours and line-sharpness
- intense color density and brilliance
- printable in coldset newsprint

applications

- pharma and cosmetic leaflets
- technical manuals
