thinjet® bright high bulk

high bulk inkjet paper with enhanced brightness

benefits

- increased bulk (1.35–1.40) for premium volume at reduced weight
- book-like feel with lower grammage
- superior brightness for improved readability
- controlled ink absorption for consistent print quality, sharp text, and well-defined graphics
- lower total cost of ownership through optimized ink usage and higher output per ton of paper
- fast drying supports maximum press productivity
- lightweight paper means less pulp, lower weight, reduced transportation space, and less waste
- excellent printing and converting performance
- made from FSC™ and/or PEFC certified and controlled wood pulp (FSC-C023027, PEFC/02-31-107)

features

- grammage range from 60 g/m² to 80 g/m² (40.5 lbs to 54 lbs)
- stable runnability on industrial high-speed inkjet presses
- high stiffness for stable processing and finishing
- optimized surface for reliable print and post-press performance
- wide color gamut for demanding applications
- excellent printed opacity at low grammages
- printable on both sides (duplex capable)
- optimized for mono and multicolor printing
- compatible with pigment and dye inks
- no primer required

applications

- manuals
- direct mail
- transactional
