

R&D engineer

delfort

creative collaboration

DUNAÚJVÁROS - HUNGARY - FULL-TIME

We are the world's leading company in functional papers. Push yourself to the next level with our philosophy of creative collaboration. Join our global family and be part of our next chapter.

Your main tasks...

- planning and facilitating test runs in production and in pilot scale in laboratory
- problem solving, chemical and physical analyses in the laboratory
- participation in the larger scale innovation projects
- reporting related to test runs and analyses

Preferably You...

- are open minded, extrovert person and great team player
- are willing to take responsibility and work also independently, if needed
- are interested in problem solving and like challenges
- have a university degree
- are willing to work in international, English -speaking team

We do not expect you to have experience in paper industry, but we expect you to challenge yourself in order to become an expert in this field.

We offer you...

- a possibility to be part of the team which is developing new products to a global market in a world leading company of specialty papers
- a flat organization and relaxed working environment in a team with good team spirit
- a modern, state of the art R&D laboratory assets with selected high-tech tools
- responsibilities adjusted based on your skills to fit our team
- a special opportunity to network also with our foreign locations, suppliers and outside R&D laboratories
- a delfort professional and soft-skills training programs

We have exciting plans for our future and offer fascinating areas of responsibility at an international successful group of companies. If you are willing to be actively involved in the further development of delfort, we are looking forward to receive your complete application documents.
